

## **A'LEVEL MATHEMATICS SEMINAR-INVITATION**

Gayaza high school will host an A'level maths seminar for senior six students on 5th April starting at 9:00am. All participants will be required to pay sh.3, 000 to facilitate the organisation on arrival. Schools from all over Uganda are expected to participate.

If you are far and your students cannot attend we invite you to participate online by forwarding atleast one solution to any of the questions. This should be well typed in a word document to [gayazahero@yahoo.com](mailto:gayazahero@yahoo.com) or to [ronaldddungu@yahoo.com](mailto:ronaldddungu@yahoo.com)

All those intending to attend we request that you contribute solutions online to any questions chosen and we will return a series of solutions as they come in using your participating email.

At the end of the seminar we will circulate the agreed on solutions.

We would also like to request that the teachers carry any available laptops and projectors in their schools to facilitate the use of technology in this seminar. Video-cams are should also be carried to record the proceedings.

E learning is key to the development of maths education and to all our partners we humbly request for support as we modernise our presentations at the seminar. For any support please send an email to [ronaldddungu@yahoo.com](mailto:ronaldddungu@yahoo.com)

The seminar will follow a group discussion method where students will be divided into small groups and assigned a classroom with a teacher. If most of the solutions are available and well typed then the discussion will be more focussed.

Distance should not keep us away.
