

National Science with ICT Holiday Camp.

Objectives of the Holiday camp:

- Providing science girls with an opportunity to learn from each other and share the experiences regarding challenges (factors that negatively affect learners' classroom participation) in the learning of science in Uganda and the strategies to address them.
- Covering some of the abstract concepts in Physics, Chemistry, and Biology using ICT.
- Exposing science students to the use of the Internet as a learning resource.
- Enhancing learners' self-esteem, communication and presentation skills.
- Building and enhancing learners' positive attitude towards science through personal testimonies of female role models in science related professions.
- Providing participants with multimedia interactive digital content which make learning of science engaging and interesting.
- Learning through personal testimonies of participants of the previous camp.

Hon. Sematiko, Vice Chairman, Parliamentary ICT committee addressing the girls.
